Relevant Experience

Senior Engineer, July — Present
Associate Engineer - May 2020 - 2023 May
Engineer, October 2019 - May 2020
Intern, June 2019 - Oct 2019

Associate Interaction Developer, **Eccentric**, May 2023— Present

- Building a unique, dynamic & versatile platform that provides millions of people easy access to vehicle purchase gives me a sense of fulfillment. I am happy to be a small part of Eccentric's enormous vision and roadmap.
- **Technology**: Webgl, three.js, JavaScript, Angular, Python, html, css etc.

Front-End Developer, **Eccentric**, 2022 Sep - 2023 May

- Building and designing multiple projects on Angular for testing 3d apps and tools, creating a dynamic & versatile platform that provides easy user interaction for 3d developers to develop 3d content.
- **Technology**: JavaScript, Angular, Python, html, css etc.

HTML Developer, **Continuum (Onsite Google)**, Jun 2020 - Sep 2022

- Here my role and responsibilities in Continuum are to create Dynamic Email Templates and Forms for our **Google** Client.
- I have developed Dynamic Emails for more than 12 Google Products like - Google Pay, YouTube, Google My business, Analytics, Google Ads, Adwords, Google Play, Adsense, Waymo, Android Developers etc.

Technical Support Engineer, **Airtel**, October 2019 - May 2020

- I have a Technical Engineer working onsite with the **Airtel** Project. I am highly skilled in Airtel networking tools like - Konnect, FSSAI, Unified Desktop, MyNetEx, Verint, ECMS, NT-HLR.
- By using above tools I resolve customer issues by calling and assigning teams to their nearest tower of customer location.

Front End Developer, **GharPeShiksha**, June 2019 - Oct 2019

- I have completed my **internship in Front End Development**, where I develop a company website templates, logo designing, create progressive web apps for mobile users, working on different tools and linking the website from backend part.
- Here I learn lots about website development and designing. learn development from scratch.
